

## Belarus

The result of qualifications is calculated on the basis of:

■ **certificate of secondary comprehensive education**

Results will be calculated as follows:

- results of secondary school leaving examination are treated as basic level, so the conversion factor 0.6 is used:

grade 10 = **100 p.**

grade 9 = **90 p.**

grade 8 = **80 p.**

grade 7 = **70 p.**

grade 6 = **60 p.**

grade 5 = **50 p.**

When a certificate states that a subject considered in the admissions process was taught at a higher level, UKR may treat the result achieved in this subject as extended level.

In case of lack of information on the level of the subject taught, UKR treats the result as the basic matura exam and the result is multiplied by a factor of 0.6.

We invite you to contact our Unit for Teaching Administration for proper calculation of points.
